G.C.E. Advanced Level (Technology Stream)  
Completed in 2018

## PROFILE

I'm ready to move into any kind of position related to the IT industry because I completed my internship as a trainee software engineer with success, giving me a strong foundation. Equipped with a passionate passion for programming and software development, as well as an active interest in automation and infrastructure management, I am passionate about using my experience to improve software deployment processes' reliability and effectiveness. I am well-known for my creativity and collaborative environment, and I will do my best in rapid work environments where creative problem-solving requires teamwork. With a track record of attention and responsibility, I am ready to succeed as a digital engineer and promote the ongoing development of software systems.

## PROFESSIONAL EXPERIENCE

### Sri Lanka Ports Authority - Trainee Software Engineer 2023

Budget Management System :

- Led development of budget management system using MERN stack.
- Designed user interfaces for intuitive interaction.
